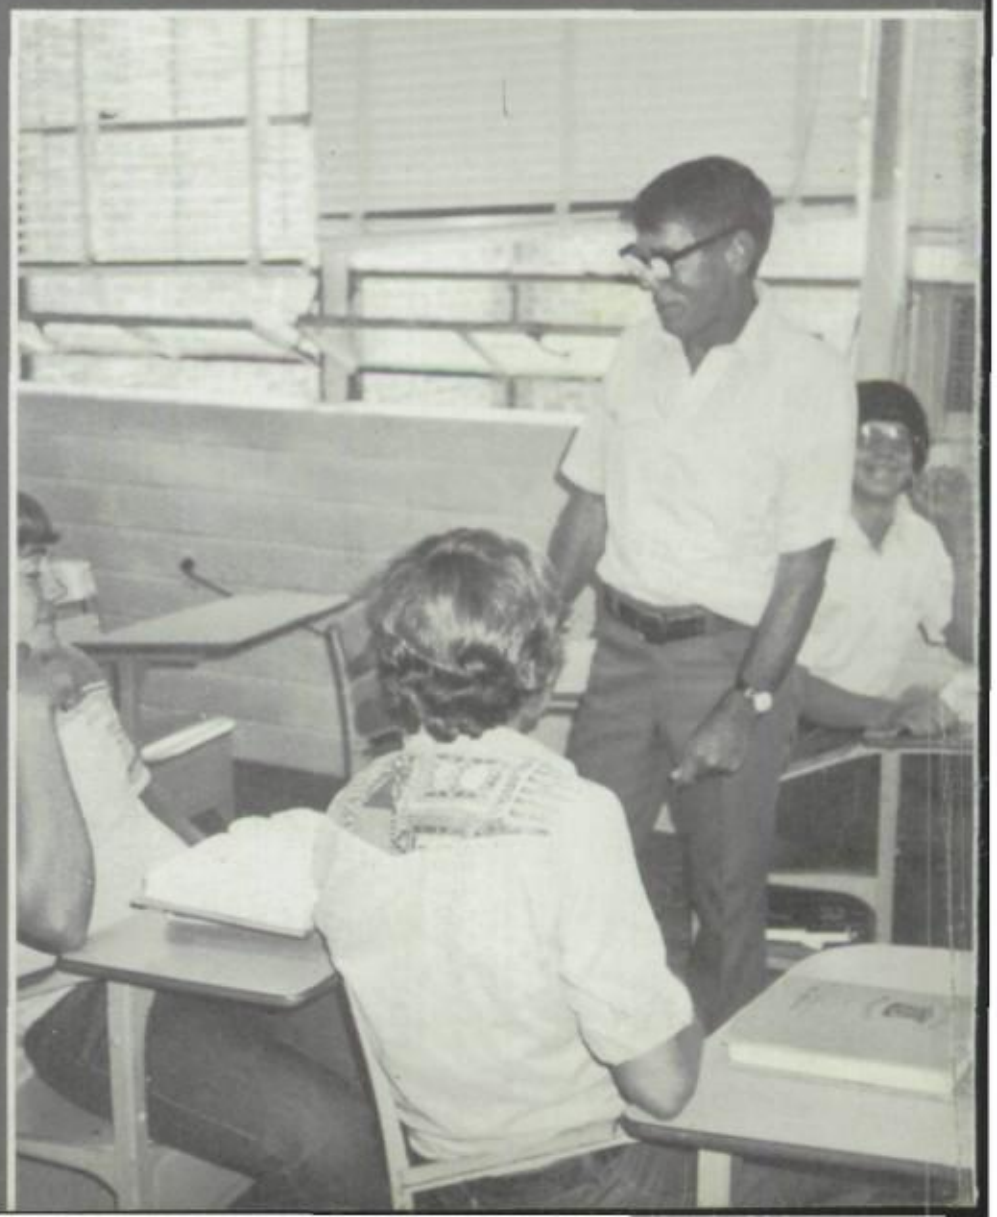
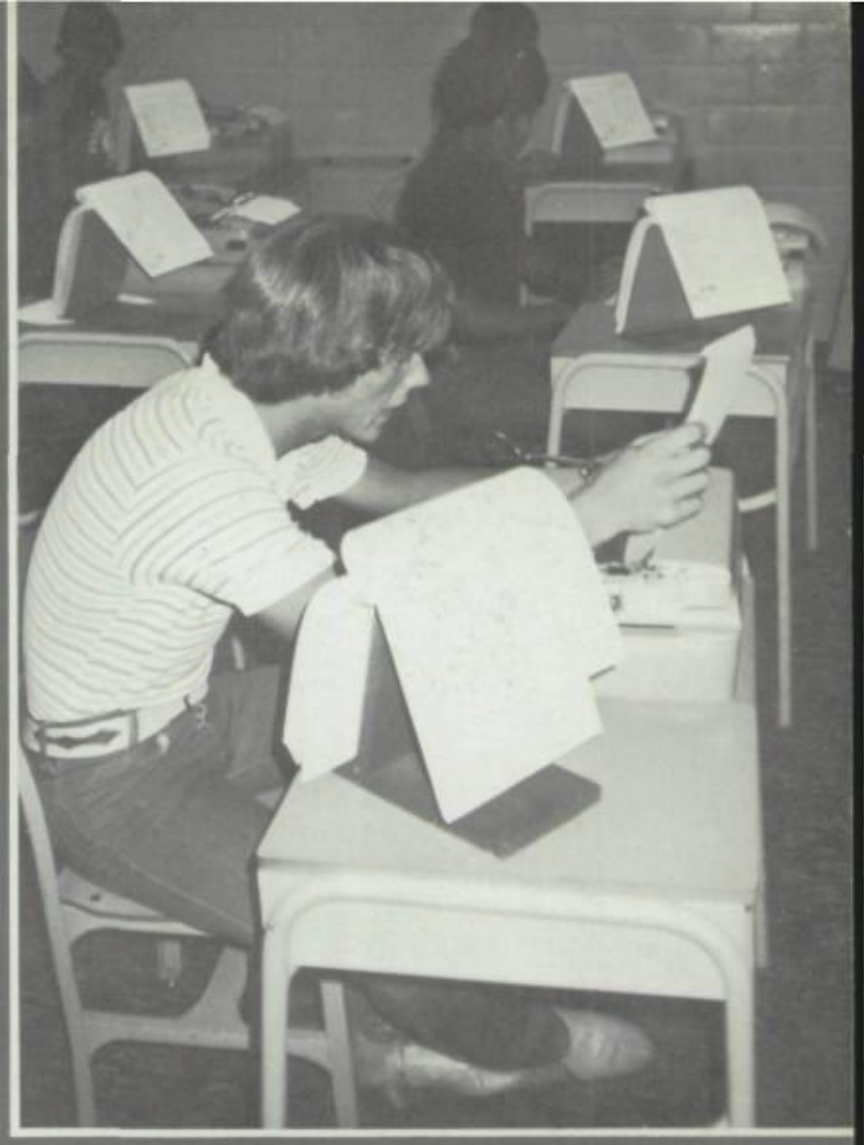
62nd. Edition

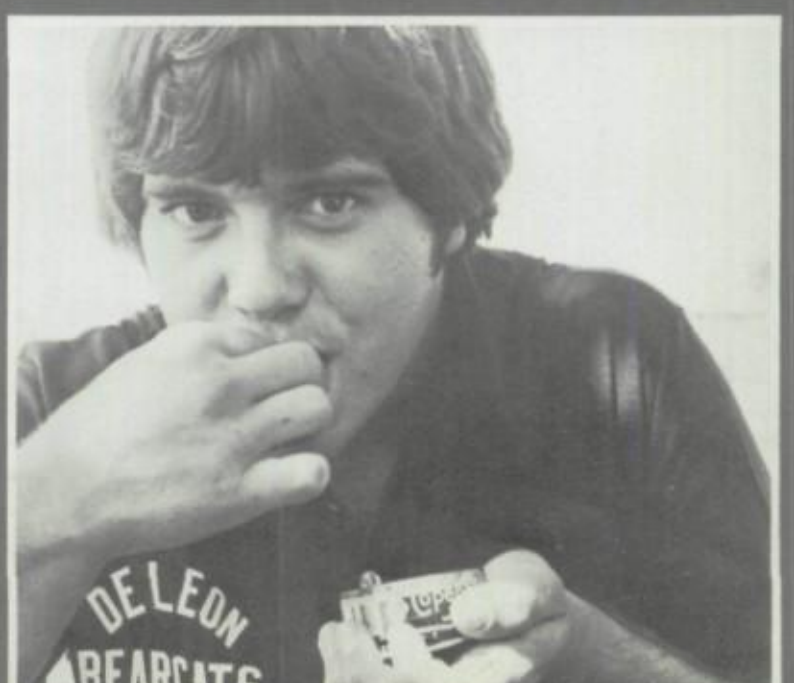
Life, so they say, is but a game—
And they let it slip away . . .





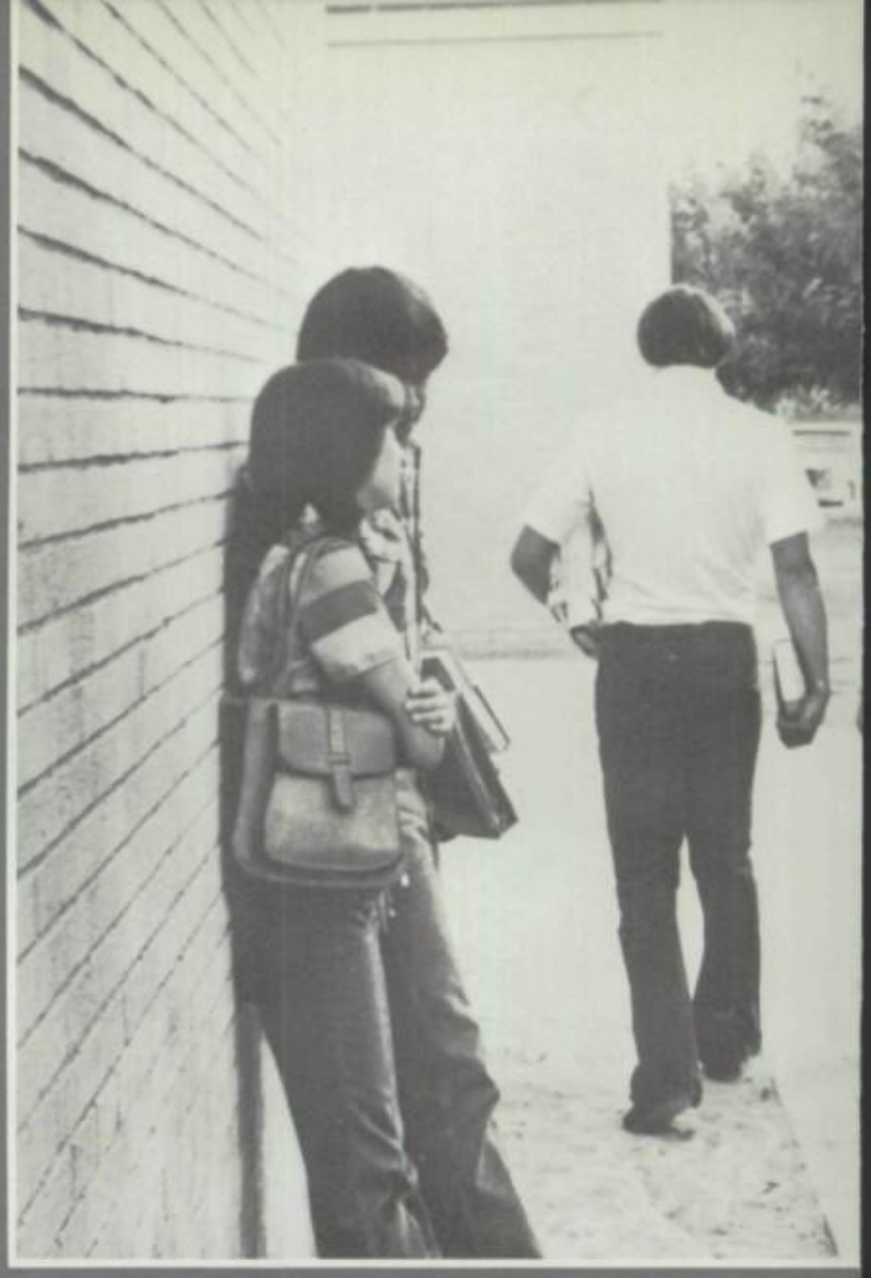
Love, like the Autumn sun,
Should be dying, but it's only just begun

Like the twilight in the road up a-head,
They don't see just where
we're going . . .

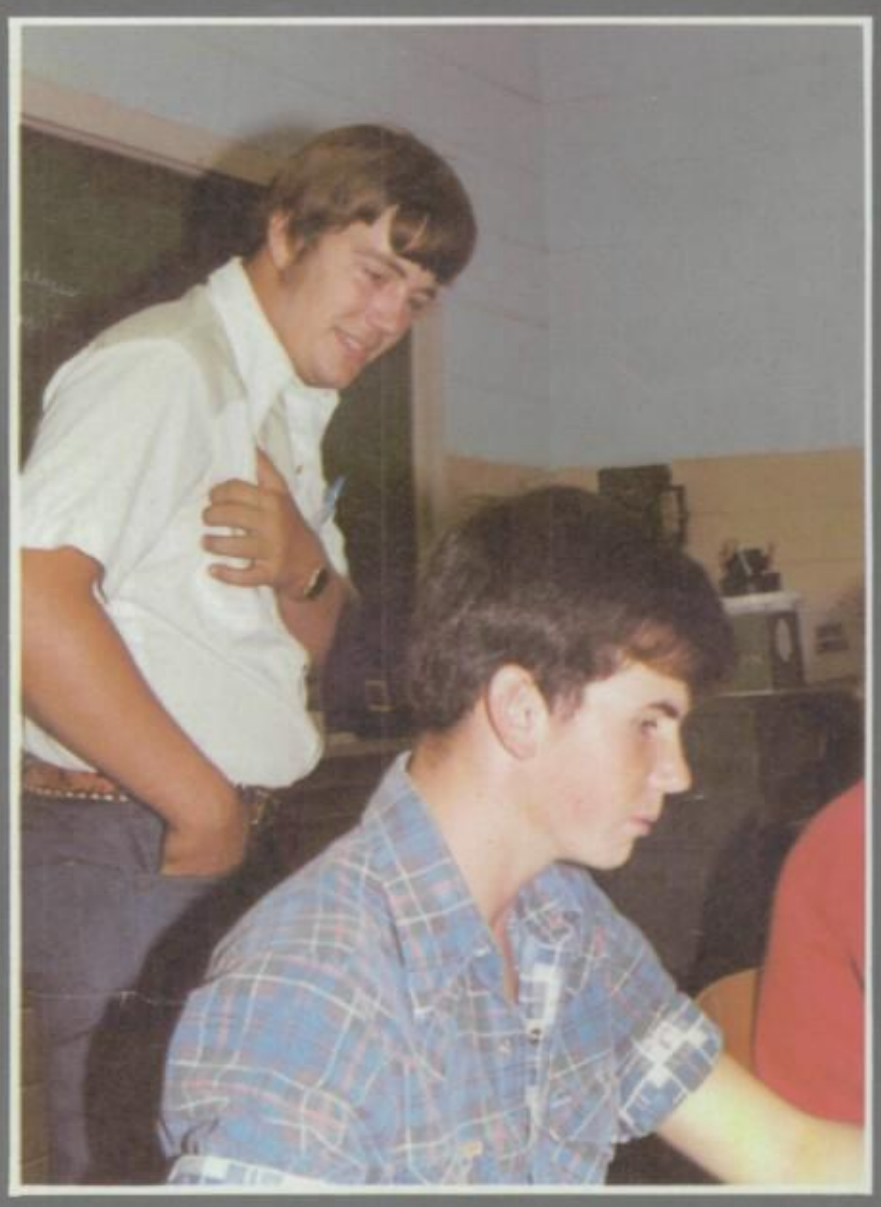


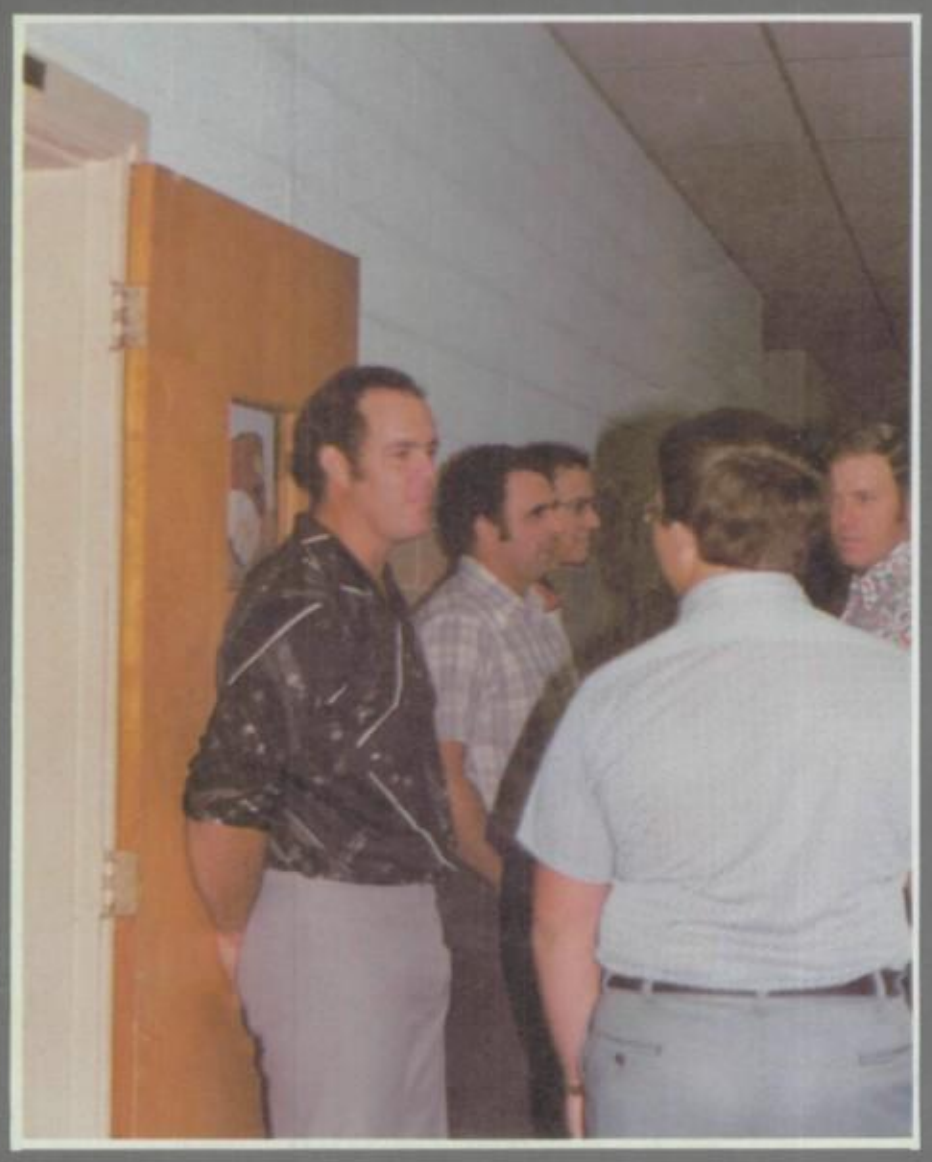
And all the secrets in the universe,
Whisper in our ears and all the years will
Come and go and take us up, always up . . .

. . . you make me feel like
I'm more than a friend,
Like I'm the journey and
you're the journeys' end.



We now cast away our fears and all the years will
Come and take us up, always up.





We may never pass this way again.

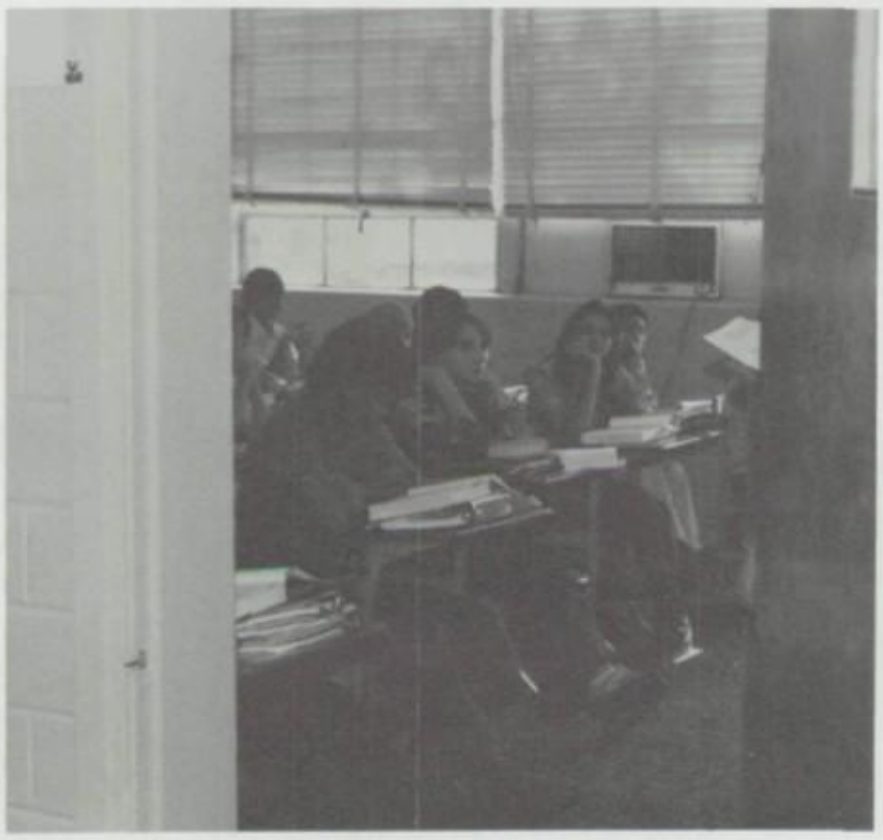
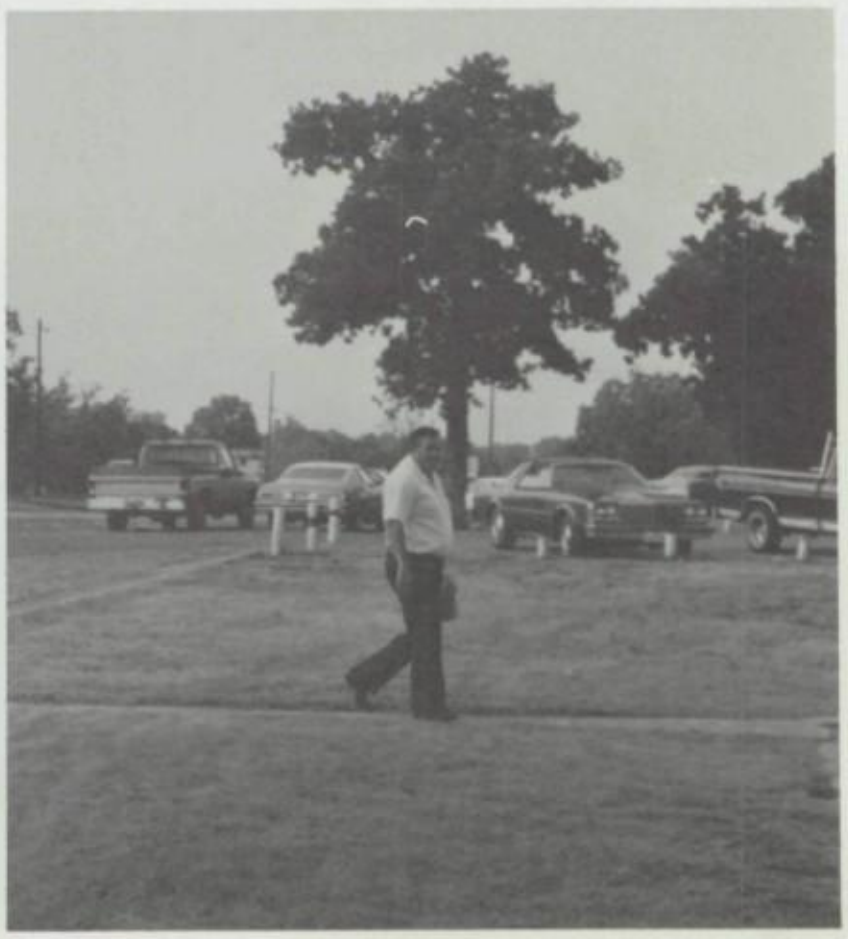
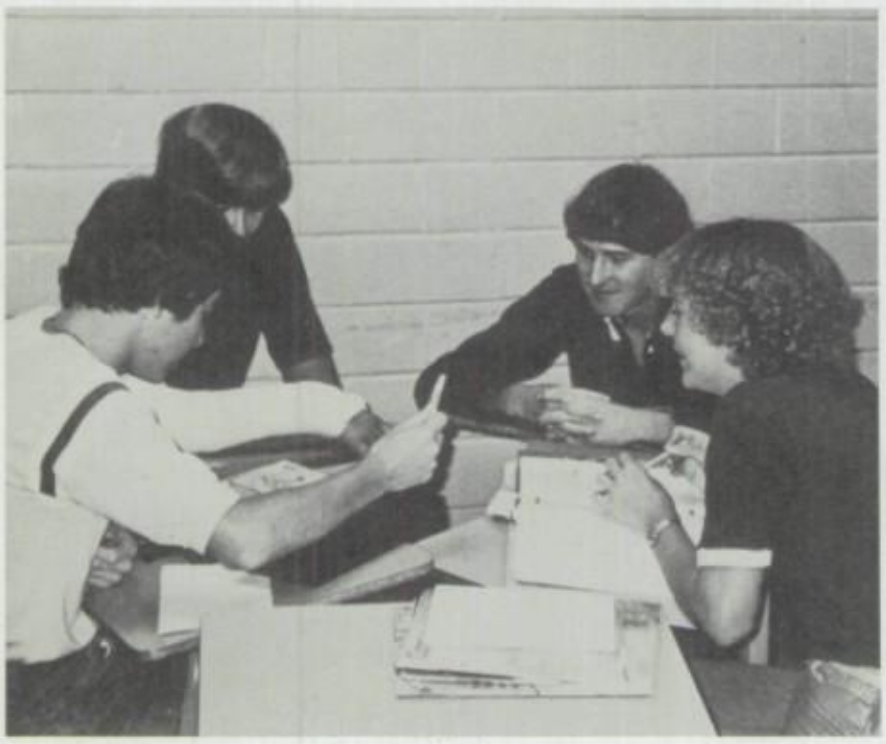
the olden days,
we gather all our
courage,

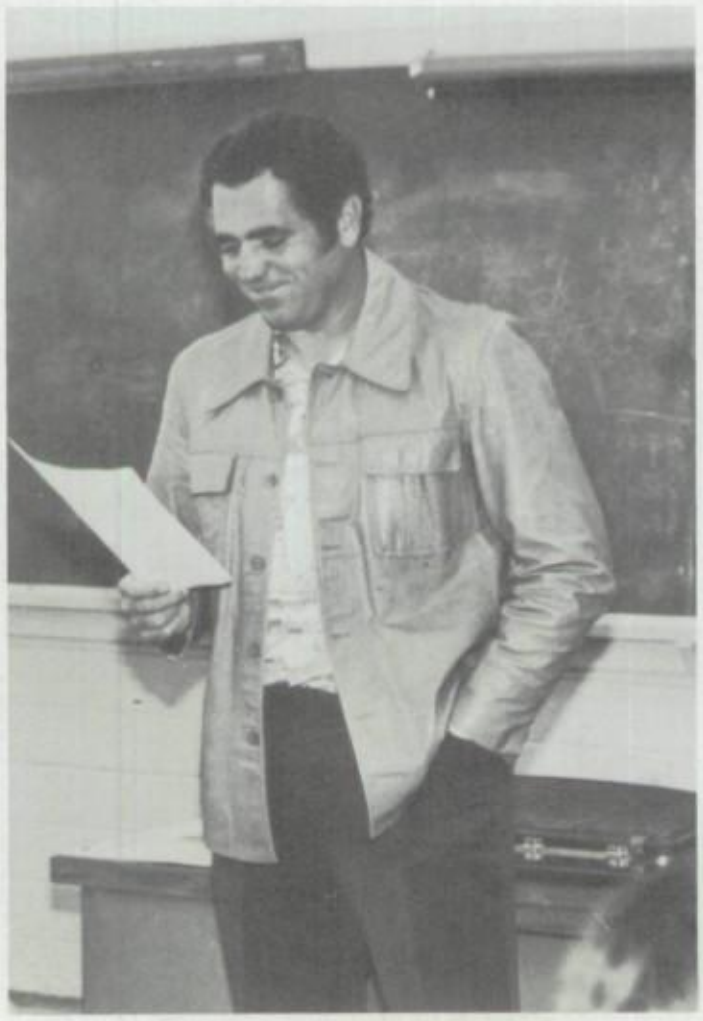


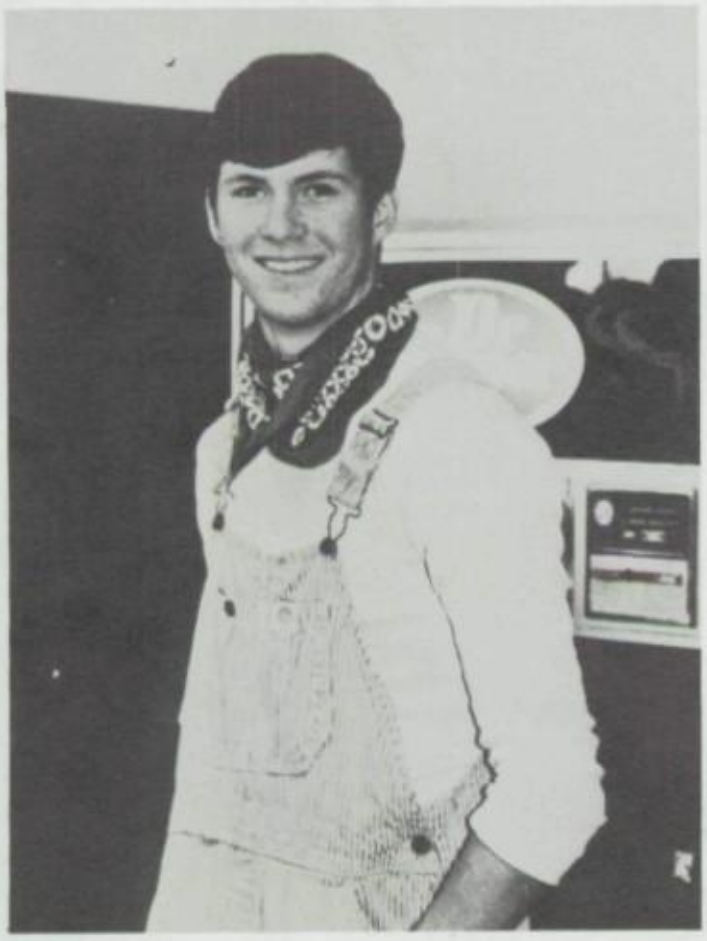
Sail our ships out
on the open sea,
cast away our fears,





And all the years will come and take us up, always up.





We may never pass this way again.

Sure was good!

You've got a bright future. We'll do our part to help keep it that way.

Your generation will need as much electricity as is being used these days. Maybe more. We at Texas Electric are working to provide you with the electricity you'll need for college, your homes and your jobs.

In the past, we've used mostly natural gas and oil to make electricity. Today, we're making as much electricity as possible in plants built to use lignite coal. And, we're building a plant to make electricity using uranium fuel. By using these cheaper and more abundant fuels, we'll help keep your future looking bright.

-Jeff-
So a super great guy.
Thanks for making my
"Sid" year go by fast.
I'll look back when we
graduate and say it sure
went by fast. Thanks for your
friendship and thoughtfulness during
my period of sickness
